Ground Status and Application Procedure

This booklet contains listed details of all current prospecting and mining facilities. Details include the names of the licensees, the geographical location and, with reference to prospecting licences, the details of the minerals for which they have been issued. The locations of these prospecting licences and mining facilities, as well as ground that is available for application is available in an online facility maintained by this Department and accessible at <http://www.mineralsireland.ie/OnlineServices>.

Available Ground

Ground that is available for exploration under a Prospecting Licence (PL) is available online through
<http://spatial.dcenr.gov.ie/ExplorationAndMining/SpatialViewer/index.html>.

1. Ground Categories

- a. **Open areas (Green/Pale Green):** Established licence areas available for application at any time are identified by their number. Those areas coloured pale green attract exploration incentives (see Incentive Areas below).
- b. **Held areas (Red):** Current prospecting licences and recently offered licences are restricted to certain minerals (p.10-25). Such ground is available for application for prospecting for other minerals.
- c. **Competition areas (Yellow):** Available Prospecting Licence areas for this competition are listed on page 8.

2. Prospecting Licence Terms

A prospecting licence typically covers an area of 35 km². Prospecting licences are issued for a period of six years (maximum), for specified minerals, and can be renewed. A minimum expenditure per licence is required, and varies with the age of the licence (see table below). A minimum work programme is also required, details of which are agreed with the licensee. Progressively increased work and expenditure commitments are required on renewal. Work reports are required every two years, and are held confidential for six years thereafter, or until expiry or surrender of the licence. Third party insurance, indemnifying the Minister, is required for the period of the licence.

3. Incentive Areas

Significant financial incentives are available for the first six years of exploration on relatively neglected areas or areas where current exploration is restricted to certain minerals. The incentives consist of substantially reduced fees and expenditure requirements, and are designed to provide scope for relatively inexpensive "grass roots" exploration, in order to encourage work in areas where results of earlier exploration had failed to produce sufficient encouragement to the licensee.

The incentives apply to two categories of ground:

- a. Open Areas** where these Prospecting Licence areas have been available for application for more than four years.
- b. Areas currently licensed for certain minerals**, but available for exploration for other minerals. Currently licensed areas for which exploration may be undertaken for other minerals are listed on pages 10-25.

Open Areas available for more than four years: Where a previously issued Prospecting Licence area has been available for application for at least four years, the licence will be granted, normally, for a term of six years. A reduced fee of €1,250 per Prospecting Licence will apply, payable in advance for each two-year phase as €375 for each of the first and second phases, and €500 for the third phase. This represents a reduction of €1,875 (60%) in fees compared to the standard requirements. (There is no reduction in the application fee).

Currently Licensed Areas: Ground is also available to companies that wish to undertake exploration over areas currently held, for minerals that are not assigned to the current prospecting licence holder. Such additional prospecting licences will only be issued where the Minister for Communications, Climate Action and Environment is satisfied that there will be no clash of mineral interests. The current prospecting licence holder continues to hold a standing Statement of Interest for all other minerals in that area. The fees and expenditure requirements will be the same as for prospecting licences that have been available for over four years i.e. the 'Open Areas' Incentive category (see above).

Fees	Competition / Standard Areas	Incentive Areas
First 2 years	€750	€375
Second 2 years	€875	€375
Third 2 years	€1,500	€500
TOTAL	€3,125	€1,250
Minimum Expenditure Requirements		
First 2 years	€10,000	€2,500
Second 2 years	€15,000	€5,000
Third 2 years	€20,000	€10,000
TOTAL	€45,000	€17,500

Ground Unavailable

Ground unavailable for application is differentiated as follows:

- Licences under application, and that have been offered to the applicant
- Licence areas that are currently not being made available for application
- Licences that have been applied for under earlier competition
- Excluded areas e.g. National Parks: These are areas that are not available for application at any time.
- Current Prospecting Licences for certain minerals Mining Leases, Mining Licences and Mining Permissions

Application Procedures

While applications are invited for all categories of available ground, it should be understood that an area may have been already applied for, and that applications are treated on a time-priority basis i.e. "first come, first served". Before making an application for any open area, prospective applicants may wish to consult with the Exploration and Mining Division to ascertain whether there has been a prior application for the area. If there has been a prior application, and if a licence has been offered, the ground is not available for further applications. The acceptance of an application for a Prospecting Licence does not create any obligation on the part of the Minister to grant a licence.

Where there is a valid Statement of Interest over ground that is being applied for, the applicant will be so notified (but no other details provided), and invited to revise their application if they wish to do so.

Applicants are reminded that, if more than one area is applied for, a priority listing of the applications is required; otherwise all applications will be regarded as having equal priority. If separate applications are made over a period of time, the priorities should also take account of any earlier applications. It should be noted that where expenditure proposals are above the minimum required (e.g. in a Competition), these will be taken as the minimum expenditure requirement when the ground is offered to the successful applicant.

All applications for prospecting licences must be made using Form 1 (Application Form), accompanied by a fee of **€190.00 per Prospecting Licence Area**. The form is available to download at <http://www.mineralsireland.ie/OnlineServices/Forms>

Applications may be made to EMD.info@DCCAE.gov.ie or by post to:

Exploration and Mining Division
Department of Communications, Climate Action and Environment
29/31 Adelaide Road
Dublin D02 X285

Payments to the Department of Communications Climate Action and Environment

The Department can accept payment by Electronic Fund Transfer (EFT) only. Each payment **must** quote your 5-digit customer number. For assistance or for first time applicants please contact EMD directly.

Each payment must be followed by remittance notice detailing

- a. Name and address
- b. Your five digit customer number (eg. 12345)
- c. The date and amount paid into the Department's EFT Account
- d. A listing of the specific Department invoice number(s) to which the payment refers.
- e. Where no invoice has issued a detailed description of purpose of the payment.

The remittance notice can be sent to AccountsReceivable@DCCAЕ.gov.ie or by mail to Accounts Receivable, Department of Communications, Climate Action and Environment, Elm House, Earlsvale Road, Cavan, H12 A8H7.

All payments are to be made in Euro. Applicants should be aware that bank charges can apply, particularly when applying from overseas. Provision should be made for these charges by the applicant to ensure the full amount is received in the Department's account. Failure to do so will lead to delays in applications being accepted.

Bank Details	Bank of Ireland, Main Street, Cavan, H12 E394
Account Name	Department of Communications, Climate Action and Environment Accounts Receivable
Account No.	7849 2156
Bank Sort Code	90 32 93
IBAN	IE48 BOFI 9032 9378 4921 56
BIC	BOFIIE2D

The Department cannot accept any responsibility for payments that cannot be identified due to lack of information. Should you have any queries please contact Accounts Receivable at (01) 678 2000.

Prospecting Licence Competition

Procedures

Every three months, a Competition is held for certain Prospecting Licence areas. The competition relates to areas for which licences have been surrendered or terminated, or that have been offered but declined, in the previous three months. Previously unavailable ground may also be released through competition. Interested parties normally have two months in which to apply for a licence over a competition area, with all applications received during that period deemed to have been received at the same time i.e. no time priority is given to applications received during those months.

It should be noted that no reduction in financial commitment by aggregating expenditure from contiguous areas will be accepted for the first two-year phase for any licence area awarded under competition.

Prospecting licences available for application under Competition will be published usually on the 1st February, 1st May, 1st August and 1st November of each year. They consist of a list of prospecting licence areas that have become available for application under equal competition, together with details of how to apply, and a listing of prospecting licences issued or offered and advertised since the previous publication.

Maps and information on currently held Prospecting Licence areas are available through <http://www.DCCAE.gov.ie/EMDMapsAndData>. Updates to competitions are available on our competition page at <http://www.mineralsireland.ie/ExplorationLicensingProcess/ProspectingLicenceCompetitions.htm>.

Further details concerning the individual State Mining Facilities (minerals, royalties, etc.) are published in the Six Monthly Report to the Oireachtas by the Minister for Communications, Climate Action and Environment in accordance with the Minerals Development Acts, 1940-1999. Six Monthly Reports are available at <http://www.mineralsireland.ie/LegislationFeesAndPolicy/SixMonthlyReports.htm>

Prospecting Licences Held

All prospecting licences are restricted to certain minerals and hence the PL areas in question are available for application for other minerals (although the current holder is deemed to have a standing Statement of Interest for all these other minerals). The licensed minerals are abbreviated as follows: Base metals (Bm); Barytes (b); Gold (g); Silver (s); Platinum Group Elements (PGE), Rare Earth Elements (REE) Lithium (Li), Beryllium (Be), Caesium (Cs), Niobium (Nb), Rubidium (Rb), Iron (Fe).

There are 576 Licences held on 1st May 2019.

Ireland: Exploration and Mining News 1st May 2019

MINING HIGHLIGHTS

Mine Operations

There are currently two operating mines in Ireland (Figure 1): Navan (zinc-lead) and Drummond/Knocknacran (gypsum). The underground zinc-lead mines at Lisheen (Co. Tipperary) and Galmoy (Co. Kilkenny) ceased production in December 2015 and October 2012 respectively.

2018 Mine Production

- Zinc metal in concentrates: 132kt
- Lead metal in concentrates: 17kt

2018 Mine Output (Metal Content)

(a) Zinc

- Ireland produced 12.1% of European zinc mine output (3rd in Europe)
- Ireland produced 1.0% of World zinc mine output (15th in World)

(b) Lead

- Ireland produced 3.8% of European lead mine output (7th in Europe)
- Ireland produced 0.36% of World lead mine output (24th in World)

Source of Production Data: International Lead & Zinc Study Group

Development

In 2018, Ireland's zinc-lead production accounted for approximately 12% of European zinc mine output (18.5% of EU28 production) and 4% of European lead mine output (9.5% of EU28 production). These figures equate to 1% of world mine production for zinc and 0.36% for lead. According to data published by the International Lead and Zinc Study Group, in 2018, Ireland ranked 15th and 24th in the world in relation to zinc and lead mine output respectively. Ireland is no longer placed first in terms of European mine production for zinc; Ireland currently places third in Europe, behind the Russian Federation and Sweden.

Boliden Tara Mines' underground operation at **Navan**, Co. Meath, is the largest zinc mine in Europe. In 2018, Tara milled 2.2Mt of ore grading 6.28% Zn and 1.20% Pb. Since mining operations commenced in 1977, up until 31 December 2018, total

production at Navan has amounted to 94.76Mt grading 7.61% Zn and 1.74% Pb. At the end of 2018, the mine's PERC classified ore reserves (proven and probable) stood at 19.0Mt grading 5.7% Zn and 1.5% Pb, whilst mineral resources (measured, indicated and inferred) were 23.0Mt at 7.2% Zn and 1.7% Pb.

Irish Gypsum Ltd., a subsidiary of French multi-national Saint Gobain, produced approximately 200kt of gypsum in 2018 from its underground (**Drummond**) and open pit (**Knocknacran**) operations in Co. Monaghan. The gypsum is crushed and blended on site, before being transported by road to a production facility at the nearby town of Kingscourt for manufacturing plaster and plasterboard. A smaller tonnage of gypsum is additionally used in the manufacture of cement.

Exploration Activity

As of 30th April 2019, 45 exploration companies held a total of 576 Prospecting Licences. A further 58 Prospecting Licence applications are currently being processed. Since the last PL competition on 1st February 2019, 53 licences have been surrendered. In the same period, 19 licence areas have been issued to the following companies: **Minerex Ltd** (10), **Group Eleven Mining and Exploration Ltd** (4), **Unicorn Mineral Resources** (3) and **Challenge Exploration Ltd** (2).

Zinc and lead remain the principal commodities of exploration interest in Ireland. Other commodities that are currently being sought in Ireland include; gold, silver, barite, copper, PGEs, molybdenum, lithium, antimony and gem minerals.

EXPLORATION HIGHLIGHTS

<i>Number of Current Prospecting Licences (PLs):</i>	576
<i>Number of Corporate Entities holding Prospecting Licences:</i>	45
<i>Percentage of Ireland Land Area under Licence:</i>	Approx. 28%
<i>Total Exploration Expenditure in 2018:</i>	€20.94 Million
<i>Exploration Expenditure on PLs in 2018:</i>	€18.715 Million
<i>Exploration Expenditure on State Mining Facilities in 2018:</i>	€2.07 Million
<i>2018 Drilling on PLs (non-mine related):</i>	Approx. 60,000 m

Group Eleven Resources Corp. continues to hold the largest ground position in Ireland comprising some 90 Prospecting Licences. The company exclusively holds 73 licences in four main project areas; Pallas Green West, Silvermines North, Tralee and Silvermines. Group Eleven additionally holds a 60% interest in **Ballinalack Resources Ltd** (11 PLs centred on the **Ballinalack** deposit) and a 76.56% stake in **TILZ Minerals Ltd** ‘**Stonepark Project**’ (6 licences adjacent to Glencore’s Pallas Green property).

In late 2018, Group Eleven announced an updated NI43-101 mineral resource estimate for the **Ballinalack** deposit, prepared by CSA Global (UK) Ltd under contract to SLR Environmental Consulting (Ireland) Ltd. The estimate was based on recent drilling by the **Ballinalack** JV, as well as historic drilling from the 1970s. The Ballinalack project contains estimated Inferred Mineral Resources of 5.4Mt grading 7.6% zinc, 1.1% lead and 9.0 g/t silver. Mineralization occurs at depths ranging from 10 to 300 metres and dips 15-20° to the north. SLR and CSA Global comment that the deposit is open along and across strike and recommend additional step-out drilling to potentially augment the resource estimate. Previously, in April 2018, **TILZ Minerals Ltd.**, (a joint venture between Group Eleven and Arkle Resources Plc, see below) announced a maiden Inferred Resource Estimate (NI43-101) for the **Stonepark** deposit of 5.3Mt grading 11.15% Zn+Pb combined.

Glencore has updated its resource for the **Pallas Green** project in Co Limerick in its 31st December 2018 Resource and Reserve Statement. Following the 2018 drilling campaign the resource has been upgraded from an inferred resource of 44.2Mt at 7% zinc and 1% lead in 2017 to an inferred resource of 45.1Mt at 7% zinc and 1% lead in 2018. The Inferred Mineral Resource is reported to be based on 392,000m of diamond drilling in 775 drill holes completed between 2002 and the end of 2017. Drill spacing is nominally 100m, but 178 infill drill holes at 50m spacing have been completed.

Adventus Zinc Ireland Ltd ('AZIL') is currently the third largest licence holder in Ireland, with 50 PLs. In February 2019, the company announced that it had entered into a heads of agreement on its Lismore, Fermoy, Millstreet and Charleville exploration projects with Australian junior explorer **BMEEx Limited**. AZIL will continue to retain its Rathkeale and Kingscourt project interests. BMEEx already holds a total of 21 licence areas in Cos Cork, Donegal, Leitrim and Longford.

Erris Resources Plc has completed a 12 hole underground drill programme (totalling 1,004.5m) at the **Abbeytown** Zn-Pb mine in Co. Sligo. The drilling has confirmed the continuity of mineralization between the underground mine and mineralization intersected in recent surface drilling, 300m south of the mine. Significant drillhole intersections included: 14.37% Zn+Pb combined and 67.25 g/t Ag over 2.0m in drillhole ABUG009 and 12.66% Zn+Pb combined and 21.05 g/t Ag over 2.0m in drillhole ABUG004.

In recent months, **Conroy Gold and Natural Resources plc** has undertaken drilling at a number of locations within the Longford Down Massif. Drilling at **Clay Lake** in Northern Ireland returned an intersection of 150.5m grading 0.3g/t Au from 108.5m depth. The intersection included an upper intercept of 52.5m @ 0.5 g/t Au (from 108.5m) and a lower interval of 18m @ 0.6g/t Au from 240m depth (including 2m grading 2.7 g/t Au). More recently, a programme of drilling has also commenced at **Sieve Glah** (Co Cavan) to follow up encouraging deep overburden and trenching results.

Connemara Mining Company plc has announced its name change to **Arkle Resources PLC** as of the 22nd March 2019. The company Chief Executive Officer, Patrick Cullen, explained the name change as "*Connemara Mining Company plc was originally established to develop Irish zinc assets, we believe our rebranding will allow us to better represent the Company's diversified position in both gold and zinc*

exploration and resource development and our geographical spread across Ireland".

Additional information is available on the company's new corporate website

www.arkleresources.com.

SP	Stonepark

Exploration and Mining Expenditures 2018

Based on provisional figures provided by exploration and mining companies, expenditure during the calendar year 2018 totalled **€20.94 million** (excluding office overheads). This is somewhat higher than the 2017 figure of €19.55 million. The expenditure of €20.94 million is comprised of €18.71 million in Prospecting Licence Areas (“greenfield” exploration) and €2.22 million in areas covered by State Mining Facilities (SMF, “brownfield” exploration). Expenditure on drilling on PLs in 2018 amounted to €10.73M, slightly higher than the figure for 2017, despite some drilling activities being restricted in Autumn 2018, while legislative amendments were enacted to enable the Minister to undertake EIA screening for mineral exploration deep drilling.

The expenditure in PL Areas is mainly related to base metal exploration (€17.71M), with lesser amounts being spent on gold (€570k) and other minerals (€431k).

Drilling statistics

Preliminary figures provided by Prospecting Licence holders indicate that a total of some 60,260 metres of drilling (non mine-related) was carried out during 2018, mainly for base metals (zinc, lead).

Prospecting Licences (PLs)				
Activity	Base Metals	Gold	Other	Total
Geology	€2,359,819.23	€199,563.00	€8,432.00	€2,567,814.23
Geochemistry	€988,505.76	€61,574.00	€64,755.00	€1,114,834.76
Geophysics	€2,924,292.00	€14,693.00	€0.00	€2,938,985.00
Airborne Surveys	€202,229.00	€0.00	€5,950.00	€208,179.00
Drilling	€10,202,549.00	€188,785.00	€337,458.00	€10,728,792.00
Trenching	€11,230.00	€0.00	€3,400.00	€14,630.00
Environmental Studies	€149,438.00	€0.00	€11,194.00	€160,632.00
Other Costs (Includes data acquisition, consultancies, storage costs and report writing but excludes office overheads)	€876,584.00	€104,960.00	€0.00	€981,544.00
Total Expenditure [PL Areas] (A)	€17,714,646.99	€569,575.00	€431,189.00	€18,715,410.99
Irish Office Overheads	€1,259,207.83	€366,600.00	€19,100.00	€1,644,907.83
Total plus Irish Office Overheads	€18,973,854.82	€936,175.00	€450,289.00	€20,360,318.82
State Mining Facilities (SMFs)				
Drilling				€2,066,508.00
All Other Expenditure				€153,755.00
Total Exploration Expenditure (B)				€2,220,263.00
Mine Development Expenditure				€16,048,407.00
Total Exploration Expenditure				
PLs + SMFs excluding office overheads (A + B)				€20,935,673.99

PDAC Convention, Toronto, March 2019

The 87th Annual Convention and Trade Show of the Prospectors and Developers Association of Canada (PDAC) was held in Toronto from 3rd to 6th March 2019. As usual, the Exploration and Mining Division jointly exhibited at the Trade Show with the Geological Survey of Northern Ireland and the Geological Survey of Ireland, in a combined **Ireland** exhibit. This year, the Irish delegation was significantly boosted by the attendance of Minister of State for Natural Resources, Seán Canney, TD. Minister Canney held numerous meetings with Prospecting Licence holders and additionally presented at the International Mines Ministers Summit. In addition, the Minister ratified Ireland's membership of the Intergovernmental Forum on Mining, Minerals, Metals and Sustainable Development (IGF) at a signing ceremony held at the Ireland PDAC booth. The ceremony was attended by the Minister, IGF Director Greg Radford, various IGF executive committee members and a number of DCCAE personnel.

The PDAC meeting is the biggest of its kind in the world, attended by investors, analysts, mining executives, geologists and government officials. This year, the convention was attended by 25,843 delegates from 132 countries. It is hoped that Ireland's involvement in the Trade Show will result in an increased interest in exploration in Ireland.

Minister Canney and Greg Radford, Director, IGF (middle) pictured at the IGF membership signing ceremony at PDAC 2019

Change to Public Notice of Intention to Grant/Renew a Licence

Section 7(2)(a) of the Minerals Development Act as amended, provides that the Minister will not grant a Prospecting Licence unless he has, *at least 21 days* prior to granting the Licence, published in one or more newspapers circulating in the locality, notice of his intention to do so. In line with best practice the Exploration and Mining Division has administratively been applying a 30 day consultation period before making a decision on a Prospecting Licence since 2018. The wording of published newspaper notifications has recently been changed to reflect this. As outlined, the change in what is published does not represent anything new to how the process has been administered for almost a year now. Please let EMD know if you have any queries on the above or if you require further information.

Appendices

Publicly Available Prospecting Licence Area Data

Public viewing access

Publicly available Prospecting Licence area data consists of non-confidential company work reports, both on surrendered Prospecting Licences, and on work more than 6 years old in current Prospecting Licences. This 'open file' data is available for viewing by members of the public from the Geological Survey of Ireland (www.gsi.ie), Department of Communications, Climate Action and Environment, Beggars Bush, Haddington Road, Dublin, D04 A068, and also from the Exploration and Mining Division, (www.DCCAE.gov.ie/EMD) 29/31 Adelaide Road, Dublin, D02 X285 (only for data released from 1st January, 2000). The following viewing arrangements currently apply:

- Access to the Databank held by GSI. By making an appointment with the Minerals Section to view the reports at the GSI (see contact below), or by visiting the GSI Customer Centre and accessing the databanks through the public computer system.
- Digital copies of these may be obtained. Please contact GSI for details and charges. All digital data from EMD is free.
- Photocopies (b/w). These are supplied at cost. Currently the charges are: A0 €6.00; A1 €5.00; A2 €3.00; A3 €0.30; A4 €0.15

For appointments or further information, please contact either the Geological Survey, Eoin McGrath of the Minerals Section, Tel: 01 678 2863, eoin.mcgrath@gsi.ie, or the Exploration and Mining Division (Dr Wayne Cox, Tel: 01 678 2677, wayne.cox@dccae.gov.ie).

Catalogue of Open File Data

A digital copy of the 'Catalogue of Exploration Company Open File Data' is available free of charge from the Geological Survey. The catalogue lists all of the approximately 75,000 individual items (reports, maps, sections, drill logs), which are currently held in the open file system. The Catalogue is available as an Access database on CD and may be obtained by applying to Eoin McGrath of the Minerals Section, Tel: 01 678 2863 or: eoin.mcgrath@gsi.ie.

Online Data Availability

Since mid-2003, the Exploration and Mining Division have been progressively providing publicly available company exploration data released since 1st January 2000 on the www.MineralsIreland.ie website. Data relating to over 1700 PL areas, including those in the current PL competition, are now available.
